# Dhruvin Lad

437-299-3263 | c0903253@mylambton.ca | linkedin.com/in/dhruvin-lad | github.com/dhl846

## TECHNICAL SKILLS

**Languages**: C#, JavaScript, MS-SQL, LINQ, Python, Java, HTML/CSS
**Web Development Frameworks**: ASP.NET Core, Razor, Flask
**Database Technologies**: SQL Server Management Studio, Oracle
**Developer Tools**: Visual Studio, Git, Azure DevOps, VS Code, PyCharm, Eclipse
**Libraries**: Dapper, Entity Framework, Newtonsoft.Json
**Other tools and technologies**: Linux, Agile, Scrum, Jira, Kanban, XP

## EDUCATION

**Lambton College**                                                        Aug. 2023 – Present
*Post Graduate Diploma in Full Stack Software Development*                  *Toronto, ON*

**Gujarat Technological University**                                        Aug. 2017 – Jul. 2021
*Bachelor of Engineering in Computer Engineering*                          *Vadodara, IN*

## EXPERIENCE

**Asset Protection Associate**                                             Nov. 2023 – Present
*Walmart*                                                                 *Scarborough, ON*
- Monitored CCTV cameras for suspicious activities and respond to security incidents promptly
- Maintained accurate records of incidents, and conduct training sessions on security policies
- Collaborated with management and Loss Prevention team to address security concerns and identify potential vulnerabilitiesl

**Software Developer L1**                                                  Aug. 2021 – Jul. 2023
*Rysun Labs*                                                              *Ahmedabad, IN*
- Managed multiple projects simultaneously, showcased strong time management skills
- Wrote clean, testable code and developed RESTful Web API services using .NET Core for consumption by front-end and Android devices
- Understood system requirements and functionalities for implementation, as well as communicated with clients to understand requirements and propose solutions

**Software Developer Intern**                                             Feb. 2021 – Jul. 2021
*Rysun Labs*                                                              *Ahmedabad, IN*
- Proficient in both front-end and back-end development, ensuring end-to-end functionality of applications
- Utilized version control systems such as Git to manage and track changes in codebase
- Worked in an Agile/Scrum environment, participating in sprint planning, daily stand-ups, and retrospectives

## PROJECTS

**TDG Monitoring Panel** | *.NET Core(V5.0), MS-SQL Server, JavaScript*    Aug. 2021 – Oct. 2021
- Involved in creating RESTful Web API service using .NET Core to be consumed by front-end and Android devices
- Used Postman and Swagger UI to test the web API functionality
- Diagnose and troubleshoot technical issues in existing applications

**GOGO-2** | *.NET Core(V5.0), MS-SQL Server, JavaScript, MVC*            Nov. 2021 – Nov 2022
- Created movie details app using TMDB API & Flutter framework
- Implemented REST API calls & Flutter bloc approach
- Utilized dependency injection for optimized object management
- Implemented internationalization for English & Spanish language
